To whom it may concern:

The Michigan constitution as well as the united states constitution makes it clear that judges are not to make the law but rather interpret the law. Why is the michigan supreme court even considering taking steps that would effectively change the law by denying michigan asbestos disease victims their right to a jury trial. I have lost a lobe from both of my lungs now you tell me how easy it is to breath and enjoy life like this, you can't tell me if you could you would not be so anxious to change these laws. When you see people with this problem how do you justify what you are doing or don't you care or did you just make a politition happy help me i want to know your reasoning for this law that will effect so many lives. If you can feel good about what you are doing then you are a better man than me i could not sleep. well i am not or never been a politician i have worked in auto factories and steel mills all my life maybe that is why it looks different to us. believe me it is wrong in anybody's book. you'rs truly: Adron Fields
